# GREAT BRITISH LEATHER SOFAS BY GREAT BRITISH CRAFTSMEN

A pair of large, dark, worn scissors and a smaller tool with a wooden handle, resting on a textured surface. The scissors are open, showing their blades and handles. The smaller tool has a dark, cylindrical handle and a sharp, pointed blade. The background is a dark, textured surface, possibly leather or fabric, with a subtle pattern. The lighting is soft, highlighting the textures of the tools and the surface.

At Thomas Lloyd we have been hand crafting beautiful leather sofas and chairs in Great Britain since 1981. We maintain traditional upholstery methods of cutting, pleating, buttoning, studding and finishing our furniture by hand, all performed by our expert team of craftsmen and woman, the majority of whom have been with us for over 25 years and many since the very beginning.

# OUR LEATHERS

50km east of Verona on the road to Venice lies the small industrial town of Arzignano. Whilst it may not be as well-known as its Shakespearian neighbours, Arzignano is justifiably proud of its leather tanning heritage and specifically its reputation for producing the finest furniture leathers in the World. It is here that we source all our leather hides. We only select full Top Grain hides of exceptional quality from two particular tanneries. No bottom splits, composites or synthetic hides are used in Thomas Lloyd furniture.

We offer five leather types to choose from. For each sofa design we have chosen one or more leather types that we consider to be the best match for that particular design. Alternative leather types can be selected as a bespoke order. Please note bespoke orders are not covered by our 21 day money back return guarantee.

**ANTIQUE** - available in five colours

A robust, classic leather synonymous with Gentlemen's Clubs and Grand Hotels. Once upholstered, our antique leather is rubbed back and resealed in specific areas to create an aged, antique appearance. The antique leather will continue to develop its aged patina over time.

**VINTAGE** - available in four colours

Less formal than the antique, our vintage leather lends a softer, matt appearance to classic pieces. Each hide displays the natural blemishes and inherent scars of the animal as well as tonal shade variations. This retro leather has a waxy, distressed appearance and lightens in colour in areas where stretched in upholstery.

**MILTON** - available in five colours

Milton is a two-tone textured, soft handle leather which features a tipping effect that highlights the peaks of the grain. It has a clean and polished appearance making it the perfect choice for modern contemporary upholstery.

**BLAKE** - available in one colour

Blake is a lightly-buffed, oiled leather with a natural, distressed appearance. This luxurious, pure aniline leather is produced on top quality hides and has a nappa handle. Scars and marks will be visible, which only enhance its overall natural appearance.

**TEMPEST** - available in one colour

Our Tempest leather has the buffed, velvet-like look and handle of a nubuck, without the extreme sensitivity to staining. This unique leather fits both classic and contemporary furniture, and can be paired perfectly with velvets and natural cottons.
